

## An Environmental Revolution in Packaging & Recycling

### Company Overview

Founded in 2008, Eco Pack Green Box Ltd. is a privately held company headed by Mr. Heiman Yossef, a packaging veteran with over 30 years of experience.

The company markets its unique, patented flagship product, the Eco Pack System, to carton manufacturers, distributors, plastic rentals and pooling systems, both nationally and globally, for resale to fresh produce retailers, farmers and agricultural exporters.

Eco Pack is cooperating with Amir Marketing & Investments in Agriculture Ltd, Langsam Industries, Best Pack and Yam Plast, each leading industry players with combined annual packaging revenues of over €40 million. The company is also assisted by Amir Marketing's extensive sales network and 30 warehouses, all focused on the Israeli agricultural market.

It is Eco Pack's vision to make the Eco Pack System a global industry standard for cleaner, greener, healthier transportation of fresh and processed foods.

Eco Pack is headquartered in Israel.

## The Economical, Multipurpose, Recyclable Box

Fully customizable, the ECO PACK System is made up of a versatile frame and two sleeves to suit every packaging need:

### Frame

- Standard carton and plastic crate dimensions
- Suitable for palleting, containers and trucks

### Sleeves

- Two sleeves fitted lengthwise/crosswise
- Made of plastic materials in a variety of options: Printed, plain, transparent, color, meshing, etc.

### Tray

- Size options: standard sizes: 40x60; 30x40; 40x50; 30x50
- Additional sizes can be manufactured upon request

## The ECO PACK® Advantage

Ideal for fresh produce retailers, farmers and agricultural exporters, the ECO PACK System provides a wide range of advantages:

### Recyclable

- 100 % reusable packaging
- Can be recycled indefinitely

### Economical

- 30%-70% lower in cost than competing packaging systems:
  - Reusable frame, only sleeves need to be replaced
  - New, clean tray every time
  - Significantly lower in cost than cartons

### Clean & Green

- Lower production and recycling energy requirements than any other existing solution
- Option for fully organic biodegradable box sleeves: FDA-approved technology - additional cost: 6%-7%
- Lower fuel/energy consumption in transportation

### Versatile

- Suitable for a wide variety of products: Fish, bread, dairy, meat, fruits and vegetables

### Customizable

- Fully customizable sleeves
- Beautifies the produce it carries
